Subject: Adel Verpflichtet/Hoity Toity Tournament Thanksgiving Update

Greetings Black Shoppers & Turkey Eaters,

The current standings – with 4 games still to finish – are now posted. No player has more than two games remaining – and all of the remaining games have players within 5 spaces of the finish line. See all the standings at http://www.gameaholics.com/adv_tournament.htm.

Peter Staab and Hochboim Haim are the first pair of individuals without a set to both finish across the line – but sadly for them, two others also finished past the line in that game (including the winner, Rob Birks, and Suzzane Tuch, third place). Our two set-less line-crossers finished second and fourth respectively.

Game 115-1 just saw an unusual Thieves Convention with a guest speaker – 4 thieves and one detective. Four thieves went to jail; four thieves got out on parole! Jürgen Kopsch was the guest speaker!

I hope everyone had a wonderful weekend. I expect the next update will announce the semi-finals! Keep up the quick play; thank you everyone!

John
